

FATKAN MUHROZI

Digital Learning, Instructional Designer, Multimedia Developer

Jakarta, Indonesia | +62 877-9265-8971 | fatkanrozi@gmail.com | Portfolio: [fatkanportofolio](#)

SUMMARY

Digital Learning, Instructional Designer, & Multimedia Developer with hands-on experience across corporate, government, and academic learning projects. from Training Needs Analysis and instructional design to building the final interactive module or video. Comfortable owning the full pipeline: storyboarding, Articulate Storyline and H5P development, Moodle and WordPress LMS integration, and multimedia production in the Adobe Creative Suite. Known for turning static course material into engaging, interactive digital learning experiences.

PROFESSIONAL EXPERIENCE

Boga Group | Training & Development Contractor

Jun 2026 – Present

- Conduct Training Needs Analysis (TNA) across 12 Boga Group brands to identify skill gaps and recommend learning solutions.
- Design and develop e-learning content and multimedia training materials, including instructional videos and microlearning content for Taskflix.
- Collaborate with cross-functional teams to develop and deliver training programs, and manage learning content to maintain a consistent, engaging learning experience.
- Piloting an immersive 360° VR learning experience allowing outlet employees to explore their work environment before engaging with training materials.

Lookmedia | E-Learning Developer

Dec 2025 – Jun 2026

- Analyzed client briefs and translated requirements into actionable project plans for enterprise and government learning modules (UNDP, UNFPA, Kemenkes, KPK, BCA, Garudafood, Kemenhut).
- Developed interactive learning media using Adobe Illustrator, Premiere Pro, After Effects, Adobe Animate, Articulate Storyline, and H5P.
- Implemented completed learning media into the Moodle LMS platform and maintained the company's internal LMS.
- Developed Learnova, a WordPress-based MOOC platform, from concept through launch.

Arkademi | Learning Video Editor

Aug 2023 – Aug 2024

- Edited and optimized learning videos, including footage analysis, cut-to-cut editing, and consistent visual/audio presets.
- Rendered videos in multiple formats and uploaded them to AWS for course distribution.
- Supervised freelance video editors to maintain production quality and consistency.

IBJ Group (Cariilmu) | Learning Video Editor

Sep 2021 – Mar 2022

- Analyzed raw production footage to identify key content for editing based on learning objectives.
- Created and applied visual and audio presets to maintain consistency across the learning video library.
- Rendered and converted final videos for multiple platforms and formats.

SELECTED PROJECTS

Rebranding Logo — Lemari Thriftbest — Project-Based

May 2025 – Jun 2025

- Developed a visual rebranding concept end-to-end — client discussions, concept development, logo exploration, storyboarding, and final logo and promotional video production using Illustrator, After Effects, and Premiere Pro.

Technical Training Video — LRT Jakarta — Project-Based

Jun 2025 – Aug 2025

- Produced animated instructional videos on Pneumatic & Braking System and Coupler System, translating technical PowerPoint content into structured visual narratives with AI-assisted voice-over.

Interactive Learning Modules — Kemendikdasmen — Project-Based

May 2025 – Jun 2025

- Developed interactive Science (Phase B) and Social Studies (Grade 7–9) learning modules using Lumi Education, from storyboard through publication on the Lumi Education platform.

Learning Object Development — ICE Institute — Project-Based

Dec 2022 – Jan 2023

- Coordinated with subject matter experts to produce animated instructional videos and logo bumpers for Learning Object content, presented for stakeholder approval.

LMS Dev. — Persepsi dan Desain Pesan (UNJ) — Product-Based

Aug 2024 – Sep 2025

- Structured a full course syllabus into 17 Learning Objects (video, slide, and infographic) and Learning Guidance scripts, integrated into a Moodle-based LMS.

Gamified Learning Module — Yuk Mengaji — Product-Based

Oct 2022 – Feb 2023

- Built a gamified Articulate Storyline module teaching Hijaiyah letter articulation and Tajwid to Grade 2 students, exported as a web-based interactive module.

Interactive Module — Menjaga Disintegrasi Indonesia — Product-Based

Aug 2022 – Sep 2022

- Developed an interactive History module for high school students, packaged as an Android APK using Articulate Storyline.

Hypermedia Module — Argumentative Essay (YARSI) — Product-Based

Jun 2022 – Aug 2022

- Built a hypermedia English-writing module with non-linear flowchart navigation, exported as a web-based Articulate Storyline module.
